MONTHLY COMMENT

PERFORMANCE

February started with a continuation of the market weakness seen in late January as investors grappled with issues such as government deficits, GDP growth prospects and global economic imbalances. Markets were more positive in the second half of the month, with many companies releasing their 2009 full year results in this period.

Utilico posted a positive performance in February, although the gain was only 0.4%. This was an underperformance against the FTSE All Share, which rose by 2.9% and the FTSE Utilities Index which gained 1.4%.

PORTFOLIO

Movements in Utilico's portfolio were modest over the month, with small gains in the Sterling values of Infratil, UEM, Resolute Mining, Keytech and Ascendant Group partially offset by some weakness in the renewable energy sector.

Investment activity was relatively modest with purchases totalling £7.0m and sales of £2.8m.

CURRENCY

The company maintained its forward currency contracts against the New Zealand Dollar at NZ\$92.5 million, corresponding to Utilico's underlying exposure in this currency. In addition forward currency contracts were also held for AU\$45.0m and EUR 5.0m.

DEBT & CASH

Utilico's £20.0m debt facility with the Royal Bank of Scotland remained fully drawn in New Zealand Dollars. Cash on hand at the end of February amounted to £11.5 million.

ZDPs

The market prices of Utilico's ZDPs all rose during the month with the 2012 ZDP up by 1.1%, the 2014 ZDP up by 1.0% and the 2016 ZDP advancing by 0.7%.

The three tranches offered yields to maturity of 4.8%, 5.4%, and 8.9% for the 2012,

2014 and 2016 maturities respectively. Asset covers at final redemption value stood virtually unchanged compared to the prior month, at 3.31x, 2.04x and 1.41x for the 2012, 2014, and 2016 maturities respectively.

OTHER
